NREF Announces 2022-23 Recipients of Clinical Fellowship Grants

August 23, 2022 (Rolling Meadows, Ill.) – The Neurosurgery Research & Education Foundation (NREF) has secured agreements with DePuy Synthes, Globus Medical, Medtronic, NuVasive, and Olympus to provide funding in support of the Foundation’s Clinical Fellowship Grants program.

“The NREF is grateful to our industry partners who continue to support the NREF in its mission to ensure that tomorrow’s neurosurgical leaders receive leading-edge training to expand their knowledge and improve patient care,” stated Charles L. Branch, Jr., MD, FAANS, NREF Fellowship Committee Chair.

The following institutions have been awarded fellowships for the 2022-23 academic year:

**Spine**
- Brown University / Rhode Island Hospital
- Cedars-Sinai Medical Center
- Cleveland Clinic
- Duke University
- Johns Hopkins
- Massachusetts General Hospital
- Medical College of Wisconsin
- Memorial Sloan Kettering
- Rush University Medical Center
- Thomas Jefferson University
- University of California, San Francisco
- University of Cincinnati College of Medicine
- University of Louisville
- University of Miami - Jackson Health System
- University of Utah
- University of Washington
- University of Wisconsin-Madison
- Washington University (St. Louis)

**Neuro-oncology**
- Indiana University

As the premier funder of neurosurgical studies and education, the NREF focuses on providing fellowship funding in basic neuroscience and neurosurgical programs in North America. The NREF is responsible for the review and approval of grant applications and awards grants based upon established fellowship program criteria and the needs of the requesting hospital and/or academic institution.
The application for the 2023-24 NREF Clinical Fellowship Grant program will open September 1, 2022 through the NREF Online Grant Portal.

For more information about the Clinical Fellowship Grant program or other grants and fellowships, please contact NREF at (847) 378-0500 or info@nref.org.

About the NREF

The Neurosurgery Research & Education Foundation (NREF) is a not-for-profit 501(c)(3) organization created in 1980 by the American Association of Neurological Surgeons (AANS) to support research and education efforts that enhance and confirm the critical role neurosurgeons play in improving lives.

The NREF is dedicated to providing education to neurosurgeons at all stages of their careers, as well as funding research into new and existing neurosurgical treatments, in order to identify links between best practices and improved outcomes in patient care. Through voluntary public donations, corporate support, and donations from allied groups, the NREF supports endeavors that impact the lives of those suffering from epilepsy, stroke, brain tumors, spinal disorders, sports-related head injuries, lower back pain and Parkinson’s disease.
