NREF Awards 2023 Medical Student Summer Research Fellowships

June 12, 2023 (Rolling Meadows, Ill.) – The [Neurosurgery Research & Education Foundation](#) (NREF) Board of Directors is pleased to announce the 2023 recipients of the NREF Medical Student Summer Research Fellowships.

The Foundation awarded fourteen (14) medical student fellowships this year.

“The NREF is delighted to recognize the promise and potential of these outstanding medical students as they embark on research careers and finding a cure for neurosurgical conditions,” says NREF Chair, Adam S. Arthur, MD, MPH, FAANS.

The [Medical Student Summer Research Fellowship](#) (MSSRF) program offers fellowships in the amount of \$2,500 to medical students in the United States, Canada or Mexico who have completed one or more years of medical school, and wish to spend a summer working in a neurosurgical laboratory, mentored by a neurosurgical investigator sponsor who is a member of the [American Association of Neurological Surgeons](#) (AANS).

Annually, these fellowships go to the brightest and most dedicated students, whose research projects are aimed at the better understanding, treatment, and prevention of neurological disorders and improved patient care.

The following individuals have been awarded a **2023 NREF Medical Student Summer Research Fellowship**:

- **Daniel Alber**, NYU Grossman School of Medicine
- **Maria Bederson**, Carle Illinois College of Medicine
- **Michael M. Covell**, Georgetown University School of Medicine
- **Adeline Fecker**, Oregon Health and Science University

About the NREF

The Neurosurgery Research & Education Foundation (NREF) is a not-for-profit 501(c)(3) organization created in 1980 by the American Association of Neurological Surgeons (AANS) to support research and education efforts that enhance and confirm the critical role neurosurgeons play in improving lives.

The NREF is dedicated to providing education to neurosurgeons at all stages of their careers, as well as funding research into new and existing neurosurgical treatments, in order to identify links between best practices and improved outcomes in patient care. Through voluntary public donations, corporate support, and donations from allied groups, the NREF supports endeavors that impact the lives of those suffering from epilepsy, stroke, brain tumors, spinal disorders, sports-related head injuries, lower back pain and Parkinson's disease.
